SUMMARY

Recent Bachelor of Information Technology graduate with hands-on experience developing and deploying real-world web applications during a professional internship. Skilled in building responsive frontend interfaces and full-stack systems using JavaScript, React.js, Node.js, and Firebase, including production-level solutions for production planning and purchase requisition workflows. Experienced in developing RESTful APIs, real-time dashboards, and user-centered applications that improve operational efficiency. Strong interest in Frontend Development, Software Engineering, and QA/Software Testing, with a passion for building scalable and modern web applications.

WORK EXPERIENCE

Full-Stack Developer Intern - CRF Malaysia Sdn. Bhd

Sep 2025 – Dec 2025

- Designed, developed and deployed Production Planning and Purchase Requisition system actively used by internal teams, improving workflow efficiency and reducing manual processing.
- Built full-stack web applications using HTML, CSS, JavaScript and Firebase, enabling real-time data synchronization and reducing manual coordination between departments
- Managed deployment of web applications using cPanel, including hosting setup, domain configuration, and database integration
- Collaborated with stakeholders to gather requirements and translate business needs into scalable technical solutions

Maintenance & Technical Intern - Promooi Plastic Industries Sdn. Bhd

Mar 2022 – Jul 2022

- Supported troubleshooting of automated production systems and maintained digital logs
- Applied diagnostic skills transferable to IT system monitoring and debugging

SKILLS

Programming Languages: JavaScript, Java, Python, PHP, C++, SQL

Frontend Development : HTML5, CSS3, Tailwind CSS, React, Responsive Design

Backend Development: Node.js, Express.js, RESTful APIs, JWT Authentication, Socket.io

Database : MongoDB, MySQL, Firebase, Oracle Database,

Tools & Platforms: VS Code, Android Studio, Git, GitHub, Postman, XAMPP, Figma, Canva, Wix, Vercel, cPanel

Soft Skills: Time Management, Communication, Problem-Solving, Critical Thinking, Fast Learner, eager to learn and adapt to new technologies.

Languages: Bahasa Melayu (Proficient), English (Professional working proficiency)

PROJECTS

PawCare — Veterinary Clinic Management System

MongoDB, Express.js, React.js, Node.js, Tailwind CSS, Socket.io

- Developed a full-stack system with role-based access (Admin, Vet, Staff) for clinic operations
- Built RESTful APIs and modular backend architecture using Node.js and Express.js
- Implemented real-time queue system using Socket.io, improving patient flow visibility for staff and reducing customer wait-time confusion.
- Designed secure authentication with JWT, bcrypt, and role-based authorization

NovaPos — Restaurant Point of Sale (POS) System

MongoDB, Express.js, React.js, Node.js, Tailwind CSS

- Developed a full-stack, web-based POS system to streamline restaurant operations, including order management, payment processing and sales tracking.
- Designed and built RESTful APIs for efficient communication between frontend and backend services.
- Created a responsive, table-friendly UI using Tailwind CSS to support tablet and desktop usage in restaurant environments.
- Integrated Stripe API to facilitate secure, encrypted credit card transactions, handling webhooks for real-time payment status updates

PriceChecker Mobile & Web System

Final Year Project: Android (Java), HTML, CSS, JavaScript, Firebase (Authentication, Firestore, Storage)

- Built Android app (Android Studio) and web admin panel (Visual Studio Code) for price comparison
- Implemented barcode scanning, price trend charts (MPAndroidChart), and Firebase Authentication
- Integrated Firestore and Firebase Storage for secure data and image handling

ADDITIONAL PROJECTS

- **Wanna Ordering System** - Web-based ordering system (HTML, CSS, JS, PHP, MySQL)
- **Smart Cooking Assistant** - Figma prototype for recipe recommendation system
- **Production Planning System** - Real-time inventory & workflow system (HTML, CSS, JavaScript, Firebase)
- **Purchase Requisition System** - Web-based system with approval workflow and real-time tracking using (HTML, CSS, JavaScript, Firebase)

EDUCATION

Bachelor of Information Technology (Hons.) <i>Universiti Teknologi MARA (UiTM), Kelantan Branch</i>	Oct 2022 – Feb 2026
Diploma in Polymer Technology <i>Universiti Teknologi MARA (UiTM), Perlis Branch</i>	Oct 2019 – Jul 2022

EXTRACURRICULAR ACTIVITIES

Service-Learning Malaysia-University for Society (SULAM) <i>Treasurer</i>	Jun 2025
• Managed project budgeting, fund allocation, and financial reporting for a community-focused tech-service initiative • Ensured cost-effective resource planning and full compliance with university and sponsor requirements	
Young Innovation Challenge <i>Facilitator & Mentor</i>	Dec 2023
• Guided primary school students in building Arduino-based projects and learning basic electronics • Led hands-on workshops, provided technical support, and fostered creative problem-solving in STEM education	

ACHIEVEMENTS & CERTIFICATIONS

- Dean's List Award – Semester 4, 5, 6
- Oracle Academy Certificate – Database Programming with SQL (January 2024)
- Foundation of User Experience (UX) Design – Google (November 2025)
- Build Dynamic User Interfaces (UI) for Websites – Google (November 2025)
- Silver Award – International Virtual Educational Design, Invention & Innovation Competition (iVEDIIC 2025) – PriceChecker App (October 2025)
- The Ultimate React Course – Udemy (April 2026)
